T.E.A. Time

T.E.A. (The Experience of All) Time is a bi-monthly forum discussion where students discuss a variety of topics. Past workshops include cooking Chinese dumplings, trying acupuncture, and discussing the Colorado amendments. Students, faculty, and staff have had the opportunity to learn more about the Asian/Pacific American culture, come to a better understanding of the world around them, and learn more about the exciting November election.

People learning about the Chinese Culture by acquiring knowledge for Chinese paper cutting, and celebrating the mid-autumn festival.

Felicia Sjim teaching about Chinese paper cutting.
P.A.L.S.

The PALS program, entitled Participation, Awareness, Learning and Sharing, pairs Colorado State University students with children in the Fort Collins community. There is bi-monthly program for all PALS participants, and students are encouraged to contact their pals on a weekly basis. Programs this semester have included discussions about China, Japan, and Korea.
B.L.A.S.T.

B.L.A.S.T. is encouraged for second year/ transfers to help provide social networking, getting to know professors and classes, getting information on campus events, getting involved with leadership developing activities, getting help in academics.

A/PACC’s goal for students who join B.L.A.S.T. is to make them feel engaged and become a full member of the CSU community and help to further develop students’ academic, social, civic and career goals.

B.L.A.S.T. does mainly support second year/ transfers, but it is not limited to these students. All students are welcome to join.

Fall Undergraduate Student Retreat

The Fall Undergraduate Student Retreat was a fun and exciting time for all the students involved. There were a lot of fun and exciting activities, leadership development, and a lot of information about Colorado State University, the A/PASS office, and the campus community. Students met other new and returning Asian/Pacific American students, A/PACC staff and their peer mentor.
Helen Zia

Helen Zia (shown on the picture on the left, wearing the red coat) is an award-winning journalist who has been helping the Asian American society in America for decades. She published a book called, *Asian American Dream: The Emergence of American People*. The book was so influential that even the former president, Bill Clinton have quoted from the book in his speech in the Rose Garden.

Peer Mentors

The peer mentors are an essential part of the A/PACC office. We currently have six amazing peer mentors that communicate with their mentees weekly. Mentees have the opportunity to learn about resume management, interview tips, stress management, money management, eat ice cream, and get to know each other and learn more about the CSU Campus and meeting new people. These peer mentors are positive role models to all students and serve as excellent guides, friends and a great resource for students to see and use.
**Upcoming Events**
